#### **DETAILED ACTION**

#### Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 37-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 37, lines 8-11, recitation: "combining a portion of stored data bits associated with the first data block with one of a plurality of sequences of bits generated by demodulating one of the plurality of data blocks" is unclear and confusing for what data or sequences are combined, and how was one of a plurality of sequences of bit generated.

3. Claim 37 recites the limitation "a portion of stored data bits". Limitation "Stored data bits" is not found anywhere else in the claim language. There is insufficient antecedent basis for this limitation in the claim.

### Allowable Subject Matter

- 4. Claims 1-36 and 39-45 are allowed.
- 5. The following is an examiner's statement of reasons for allowance

None of the prior art teaches or suggest that a system for retransmission data block use two different modulation scheme, comprising demodulates a first data block transmitted via a first data scheme to obtain a first sequence of bits, demodulates a

the first sequence, combining a portion of the first sequence of bits with a portion of the

second sequence of bits to obtain a third sequence of bits, appending an other portion

of the first sequence of bits to the third sequence of bits to obtain a fourth sequence of

bits, and decoding the fourth sequence of bits to obtain the first data block.

Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."
